

Chapter 4 - Direct Battle

3

All you
have to do
is barely touch
it, and the
Golem will
move!

Yeah!
Like the
small quartz
on the front
right side!

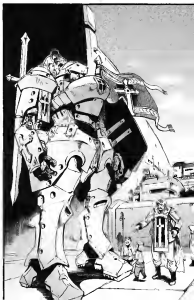

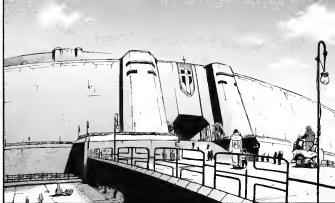

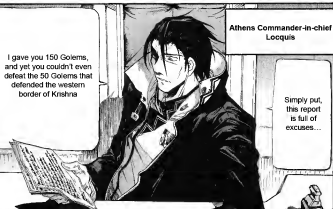

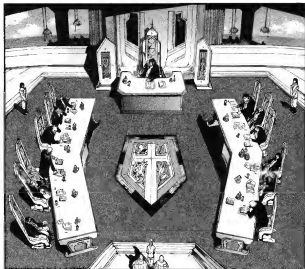

Laigotto...
We were already
inspecting it
for a month
before you came.
But no
matter where
we touched,
it wouldn't
respond.

Country of Athens
Capital Irios

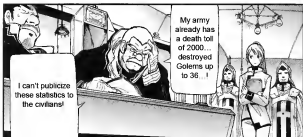

Athens Commander-in-chief
Locquis

I gave you 150 Golems,
and yet you couldn't even
defeat the 50 Golems that
defended the western
border of Krishna

Simply put,
this report
is full of
excuses...

I can't publicize these statistics to the civilians!

My army already has a death toll of 2000... destroyed Golems up to 36...!

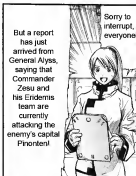

Looks like we'll have to send Shogun Brocius

The biggest problem is time... if the war drags on any longer, I'm afraid Orlande might want to get involved

If it gets out that a lot of the soldiers are hurt, then the civilians will oppose our war against Krishna

Wow!

But a report has just arrived from General Alyss, saying that Commander Zesu and his Eridemis team are currently attacking the enemy's capital Pinonten!

Sorry to interrupt, everyone!

Shogun Brocius

Zesu-sama
will definitely
not back
down, they'll
push on!

They must've
used their
newly modified
Golems and
broken through
the enemy's
defensive line
on the eastern
border!

Hahaha!
Amazing!
As expected
from
Zesu-sama!

That's right, getting
to the capital was
crucial, this can
boost up our
civilians' spirits!

50

Z
e

u
...

Once
again,
acting
on your
own so
recklessly

Do you
want to
become
known
this
badly?

81

Krishna's
capital,
Pinonten

It's number 1 in the
continent for quartz
resources, has a
great deal of
wealth, and
produces a good
bit of seafood

No wonder
my brother
wants it
so badly...

Maybe you
can forgive
what your
foolish little
brother did
and admit
that I'm
your humble
servant

Brother...
if I could
defeat my
friend's
country...

But can I do it?
Only 5 Golems left...

Zesu-sama

12

13

You don't know how to adjust the cannon angles, I'm guessing?

I'm right, aren't I? 0-Enemies-hi-Cleo?

Arugas and I are going to prepare to prepare for the 2nd attack on Pinonten, and fix up the Endermis

bong... bong... bong...

14

Y
e
a
h
?

The science of cooking! I'm very good at that!

Y
e
a
h
?

... and I wash the clothes...

I'm very useful off the battlefield, you know?

Fine, I admit that I'm not that good, but aren't you exaggerating?

—Hi! Besides having extremely large breasts for a twelve-year-old, what else is there?

How
should I
put it...
well, it
was
acting
really
weird!

The
enemy
has one
particular
Golem

Aaaaaa...

But its armor
was so weak even
a human's bullets
could penetrate it,
wasn't it?
I don't think there's
anything to
worry about...

Aaa...!
There was
a strange
Golem!

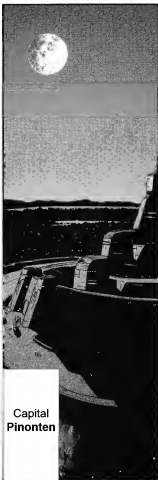

Well, there's
nothing there
it could
help us...

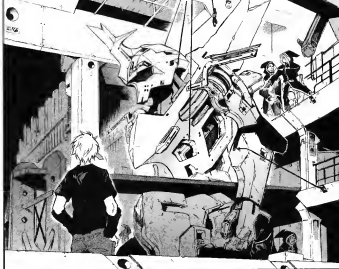

Yeah,
you're
right

It couldn't
accelerate and
lacked a defensive
shield, but it was
able to jump so high
in the air...
what the hell
is that thing

Capital
Pinonten

18

With our technology right now we can only try to smash it into bits...

We don't have a way to break apart a Golem's inner components

Oh...

But we don't know the ancient language, so it's impossible...

Maybe there's a "command code" inside that could make it break apart...

They didn't even know about maintenance...

Were the ancient people stupid?

Why is this Golem unbalanced?

And plus...

The ammunition and the armor... even a black tea cup, we use quartz to make it. But the ancient people weren't like us, they used either heat or oil to fuse together metal alloys. But why was this Golem's interior made with quartz of such low fusibility?

I originally thought they used an unattainable high-tech technology and fine quartz, only it turns out the quartz they used is weak and the technology is cheap...

The armor on the outside has a lot of air bubbles because of an incomplete reaction, but the interior doesn't have any...

That's right, Laigo! You need to rewrite your report on how to use this Golem!

It's almost as if...

... for one last desperate mission

they made this Golem in one go

Don't draw it,
use words to
explain it!

Oh come on—I

—forget it!
I'll just write
it for you
myself!

Answer:
I worked
so hard
for
nothing

I don't
care
about
your
manly
courage!

There are words in it!

"At that time, as a man I
had no choice but to
go to battle!"

...Answer me
seriously
Wasn't it
20 m high?

Uh...
I jumped
onto it...

So... How'd you get
into the 118th
collection lot?

23

24

25

28

An oil lamp... This is really expensive.

Since I can't use a quartz one, did Shigyun prepare it for me?

30

But I feel bad for Hozuru... so leaving quietly tomorrow is probably the best.

...I can't help with anything if I keep staying here.

—Hozuru, that guy hasn't changed one bit.

Didn't want to be king so he ran off to study abroad.

Zesu...

He already
retreated,
right?

what
will
Pinonten
do?

...if he
comes
again,

32

Our target now
is destroying
Krishna's military
strength...

forcing total
submission!

Begin 2nd
attack on
capital of
Krishna

—— アッサム国立士官学校 ——

旧アタネス帝国によって武力で併合されたアッサム・クリシュナが、独立戦争（独立大戦）で再び国家主権を取り戻して半世紀。

東進を外交勢力の束、同一言語を持つアタネス連邦・クリシュナ王国・アッサム王国の3か国で、「西南北連合軍」を創設する情があがった。

それに備え、アッサム国王が連合軍予備校の育成と、アタネス・クリシュナとの親睦を深めるために創設させたのが、「アッサム国立士官学校」だった。

当然、アタネス・クリシュナが軍事技術提供を惜しんだので、軍学校としての権威はあまり得られなかった。しかし、独立大戦後3か国同様の文化交流の場であったことと、学部が多岐にわたっていて卒業生が軍関係以外の専門で活躍することが多かったことで、異色の学校として注目を浴びた。

アッサムでクーデターが発生し、創設31年で廃校になっている。

（ちなみにサイゴンが陥落した北越軍団は、「金と金で買収しろ」と言われていた）
